

Calibration of reference machines.

Electrolux Laundry Systems offer calibration services for the reference machines FOM 71 MP-Lab and Wascator FOM 71 CLS.

The calibrations will ensure that the machines fully comply with the specifications given in textile testing standards like ISO 6330 and M&S standards as well as to IEC standards IEC 60456 Ed 4 and 5 and corresponding CENELEC standards.

Our staff is trained and has authorization from Electrolux Laundry Systems to calibrate reference machines.

For offer or order of calibration of the reference machines please contact the people below or:
